February 29, 2000 LB 960, 1401

changes, the bill adopted by reference national standards for weighing devices, required that weighing devices meet these standards and also provided that the operation of commercial scales shall be permitted by a permit issued by the Department of Agriculture. The legislation also added the duty and authority to the Department of Agriculture to annually inspect weighing devices for accuracy. It is clear that the Legislature delegated the supervision of weighing to the Department of Agriculture. It is likely that failure to simultaneously repeal Sections 88-520 through 88-522 was just an oversight, so I'd ask for your support in advancing LB 960 to Select File. Thank you, Madam President.
